Photographs from school events appearing online

We have a very strict policy when it comes to taking pictures of children at school events and I remind parents about this at each of our performances. To remind anyone who may not be sure of the policy it says; 'we allow parents and carers to take pictures and videos of school events, but inevitably these pictures and videos will include children of other parents. We therefore ask that any photos or video are for your own personal use and must not be uploaded to social media sites such as Facebook, Twitter, Instagram or YouTube.'

It has been brought to my attention this week that some photos of school events have, once again, appeared on social media this week. If you have posted pictures of schools events, which include photos of other people's children, on any social media platform, I ask you to please remove them and remind you of our policy.

I do not want to implement a ban on photos at school events as I know that these create fantastic memories for you and your children, but I do have to ensure we respect the wishes of all of our parents and carers, especially those that do not want pictures of their children appearing online. If necessary, and in order to protect children in the future, I may to have introduce such a ban at our upcoming Christmas performances.
